KHORRAM PLASTIC TEHRAN

PVC Granule Manufacturer

Why Choose Us?

KHORRAM PLASTIC CO is one of the main producer of PVC granule products in Iran. During 50-year activity in the field, and employing experts' co-operation and consult, using the world modern technology and creating research and development units, quality control laboratory and also in business section have been able to approach unique product quality. The company based on pack of five-decade experiences and communicating with domestic and global polymer research center, have gone through long way so that it can provide the country's major industries-such as medical equipment, automotive, wire and cable, irrigation and building hose- with lower wastage, more economic and higher quality products.

Demand Highest Quality & Diversity

QC , R&D

The primary goal of establishing a research and development unit is to improve product quality and contrive novel practical products. This unit, based on the expertise and abilities of professional specialists, is continually active in investigating and evaluating new product.

Factory

Key features of company:

- Modern mixers manufactured in industrialized nations for mixing materials.
- Conical and super conical extruders with two bends
- Vibrating cooling system for consistent final goods. PLC systems control all of the aforementioned machinery.
